

To: Joane Henney,

I'm writing to state that I support the Humane Farming Association's petition to put an end to the practice of feeding dead pigs, horses, and other animals to other farm animals. These animals are vegetarians who should not be forced to consume meat. It goes against the laws of nature. If this practice is stopped, it might put an end to the transmission of transmissible spongiform encephalopathies. I don't worry about getting these diseases because I don't eat animals, but I do worry about my dogs, friends, and family who do eat meat. Thank you.

Sincerely,
Stacey Munas
